

Cheat Sheet

1. Sign up for Ziggeo.
 - a. Go to <http://ziggeo.com/signup>
 - b. Enter your email address + password.
 - c. Go to your inbox and click on the confirm link (your account won't work otherwise!).
 - d. Go to the Ziggeo dashboard and click on the application details.
 - e. Copy the application token.

2. Create a basic index.html and make sure to put in your application token. Copy and paste this code found here: <http://ziggeo.com/faqs>

```
<!DOCTYPE html>
<html>
  <head>
    <link rel="stylesheet" href="//assets.ziggeo.com/css/ziggeo-
betajs-player.min.css" />
    <script src="//assets.ziggeo.com/js/ziggeo-jquery-json2-betajs-
player.min.js"></script>
    <script>ZiggeoApi.token = "APPLICATION_TOKEN_HERE";</script>
  </head>
  <body>
    <ziggeo></ziggeo>
    <!-- <ziggeo ziggeo-video="VIDEO_TOKEN_HERE"> -->
  </body>
</html>
```

3. Put it on a webserver (either locally or in the Internet; it won't work by just opening the file in your browser), e.g.:
 - a. Via Dropbox public folder: <http://www.dropboxwiki.com/tips-and-tricks/host-websites-with-dropbox>
 - b. Via Apache locally: <http://osxdaily.com/2012/09/02/start-apache-web-server-mac-os-x/>
 - c. Via NodeJS: <https://codio.com/s/docs/specifics/quick-node/>
 - d. Via any other webserver technologies
 - e. On Firebase: <https://www.firebase.com/docs/hosting/>
 - f. On Git Pages: <https://pages.github.com>
4. Serve up the page and record yourself.
5. Go to your dashboard on Ziggeo and open the video list. Click on the video and copy the video token.
6. Go back to your html file, uncomment the commented line and replace the token by the video token.
7. You should now be able to watch the video.
8. For more info, e.g. on JavaScript events, go to <http://ziggeo.com/docs>
